The doctor was very nice. She seemed interested in knowing me and my medical history non-judgementally. The visit was not rushed at all. The receptionist were splendid.

Dr. Isable is sweet, energetic, and most importantly, was upfront and honest with me after I told her about my aches & pains. The discussion became like talking to a friend. I recommended her to a couple friends as soon as I left. It's nice to support a woman of color in this field. The office is very nice and the staff is also friendly.
